

WHERE ARE THEY NOW?

MĀNOA SENIOR CARE

Former MSC Nurses Share Their Perspectives

Janel Manos

I am so glad I decided to move to Hawaii and join the team at MSC. Through my career at MSC I strengthened my skills in communication, delegation, and key life lessons on how to care for those with different cultural backgrounds and beliefs.

Jen Posch

Being a part of MSC I was able to master my communication skills, efficiency and proficiency, and wholistic emotional well-being for all individuals. After my two years in the care home, I was promoted to Nurse Manger and then Asst. Director of Nursing where I strengthened my leadership and management skills, learned conflict resolution, and how to be a successful mentor.

Jessica Wolney

MSC gave me an amazing opportunity to improve my leadership skills and communication skills with both my residents and their families. I loved that I was able to get to know my residents on a personal level and the job did not feel like a task-oriented job. The stories and memories I'm made with my patients will forever be cherished.

Amanda Didio

I moved to HI with the Manoa Senior Care opportunity to be an RN. While I built my confidence in my role as an RN, I was able to provide amazing customer service to the residents under my care and families. I also found my passion in geriatrics and continued to work in this area in healthcare industry in Oahu.

***Lanae
Klaustermeier***

MSC was a great experience after nursing school. I learned cultural competency caring for a different diverse population of residents than I was used to. I gained skills in independence and a wide range of cares from simple med knowledge to caring for those on hospice. I worked with different care teams and learned how to collaborate effectively with residents, families, and physicians.

Janel Manos

Since MSC: SNF/ Rehab

I used my experience and knowledge working with the geriatric population at MSC to transition into SNF/rehab nursing, which is challenging in many ways. I am using my foundation built at MSC to prioritize my patients and their care, delegate to other team members, and provide high quality care to my patients.

Jen Posch

**Since MSC: Nurse Recruiter | owner/
operator of a Resort in MN**

After returning home to Minnesota, I was able to keep my career with MSC and specialize in the recruitment of nurses for their care homes. In addition, I took the management and business skills I learned from MSC and the president of the company to run a business of my own, a campground and tavern.

Jessica Wolney

Since MSC: Home Health Care

I am now working for Adara Home Health as an Admission Nurse where I continue to enhance and improve my assessment skills daily. MSC sparked my interest for the geriatric population which is where I continue to thrive today. Without my experience with MSC I don't think I'd be where I am today. I'm so grateful for the opportunities it brought me.

Amanda Didio

**Since MSC: Veteran's Affairs SNF |
Spinal injury clinic | Geriatric Clinic**

After MSC, I stayed in Hawaii and obtained a nursing job at the Veterans Affairs on a SNF unit. Since then, I have worked in their outpatient Spinal Cord Injury Clinic and am now working as an RN in their outpatient geriatric clinic where I do outpatient nurse care and case management.

Lanae Klaustermeier

Since MSC: Home Health | Cardiac

After MSC I found myself in a homecare setting continuing my love for the geriatric population followed by my current position as a heart failure specialist at the University of Minnesota.
